Iriomote is only about 10% inhabited. That means that **we need to bring almost everything we need with us!!** That includes cash, toiletries, etc. There are very few stores. Last time we were there, there were no ATMs at all. We will likely pay for the hotel IN CASH when we are there, so we will need to get enough cash in Ishigaki or earlier before we go. We are still looking into a way to pre-pay.

### July 23, 2023

#### **SUNRISE!! - 5:45 AM\***

I'm going. If you can get up to see it, it will be one of the most amazing things you will see in your life (not an exaggeration) - Weather depending.

#### **Sightseeing Iriomote**

We are hoping to do a snorkeling excursion by boat on the full day. Iriomote is even more beautiful underwater than it is above! We will be provided with wetsuits, snorkels and fins. We will also likely do a hike on the other day we are there. We can arrange the excursions at the hotel.

"Together with Others, Immerse your Entire Body, Perceive with your Body, and Become One with the World - *teamLab Planets* is a museum where you walk through water, and a garden where you become one with the flowers. It comprises 4 large-scale artwork spaces and 2 gardens created by art collective teamLab. People go barefoot and immerse their entire bodies in the vast artworks together with others. The artworks change under the presence of people, blurring the perception of boundaries between the self and the works. Other people also create change in the artworks, blurring the boundaries between themselves and the works, and creating a continuity between the self, the art, and others."
